Canvas Parent App 'how to video'

Canvas is our Learning Management System and is a key part of every Chev student's educational experience. Canvas is a digital hub where students find all of their course content, assessments and additional resources.

Parents can effectively support their children by becoming 'observers' and we encourage every parent to use their account so they can see what home learning (homework), assessment tasks and projects students need to undertake, including the Self-Regulated Flipped Learning Module.

Peggy Handley, Leader of Learning Technology Integrator, has put together a video which explains how to navigate and best utilise the Canvas Parent App – a specialised platform for real-time academic monitoring and communication.

We encourage all parents/carers to watch the video. [Canvas Parent App - how to video](#)
